

STAR TREK™

THE COLD ENEMY

The Enterprise is under attack!

While on mission to investigate a mysterious planet, Captain Kirk's starship Enterprise is captured by Klingon warriors, leaving him trapped on the ship's bridge.

Set in the original series era, players take on the role of the ship's engineer, Scotty, and race through 6 levels of fast paced, side scrolling action!

In a race against time, Scotty must solve the mystery of Psi 20 and find a way to save his trapped comrades!

To rescue the remainder of the crew and ultimately regain control of the Enterprise, you will engage in a dangerous journey of intense fighting sequences.

Travelling from the Enterprise, to the exotic planet surface and through foreboding underground caverns you'll encounter enemies both familiar and new! Blast evil robotic life forms with your phaser, use your wits and escape deadly enemy traps.

You must keep one step ahead of the dangers around you to recapture the Enterprise and reclaim the ship from the Klingons!

Game Highlights:

- 🎮 Real time control of Scotty: walking, jumping, fighting, shooting
- 🎮 Classic dialogue and storyline from the original series, cleverly interspersed
- 🎮 A mix of primitive and advanced aliens and weaponry
- 🎮 Awesome color graphics and sound effects
